

COVID-19 Updates

Trash & recycle service restrictions starting March 30

Post Date: 03/24/2020 10:30 AM

Beginning Monday, March 30, Waste Connections, the City's solid waste service provider, will temporarily limit residential trash and recycling collection to only items **securely bagged or within container carts, and suspend residential bulk and brush collection services**. Any loose, bulk, or brush bundles placed outside of carts will not be collected, in order to minimize the risk of exposure through manual collection or "pickup by hand." These changes in service are the result of Waste Connections moving into Phase III operations in response to COVID-19 and are anticipated to last through May 1, 2020. If customers have questions about the changes to their service, please contact the City of Mineral Wells at 940-328-7777 or pwsupt@mineralwellstx.gov.

Covid-19 Waste Collection Restriction: Effective March 30, 2020

All residential services are reduced to collections of "securely bagged and cart contents only in order to reduce chance of exposure of personnel with solid waste that may occur if handling by hand. Contents not bagged or placed
