

# ***MINERAL WELLS FIRE DEPT.***

## ***OFFICE of the FIRE MARSHAL***

Rev. 11-6-2020

### **IFC 2012**

[A] 104.7.2 Technical assistance.

To determine the acceptability of technologies, processes, products, facilities, materials and uses attending the design, operation or use of a building or premises subject to inspection by the fire code official, the fire code official is authorized to require the owner or agent to provide, without charge to the jurisdiction, a technical opinion and report. The opinion and report shall be prepared by a qualified engineer, specialist, and laboratory or fire safety specialty organization acceptable to the fire code official and shall analyze the fire safety properties of the design, operation or use of the building or premises and the facilities and appurtenances situated thereon, to recommend necessary changes. The fire code official is authorized to require design submittals to be prepared by, and bear the stamp of, a registered design professional.

It shall be the policy of the Mineral Wells Fire EMS Department to require a third party review for the permitting of new and modifications to existing fire protection systems. The review shall be by an approved Fire Protection Engineer.
