

**LEAD & COPPER RULE MONITORING AND REPORTING VIOLATION  
MANDATORY LANGUAGE - TIER III**

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER**

PWS NAME has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Section 290, Subchapter F. Even though these were not emergencies, as our customers, you have the right to know what happened and what we did to correct these situations.

*We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether our drinking water meets health standards. During the quarter of July 1, 2023-December 31, 2023, we did not complete all testing requirements for water quality parameters and therefore cannot be sure of the quality of your drinking water during that time.*

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for water quality parameters, how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which the follow-up samples were taken.

Contaminant	Required sampling frequency	Number of samples taken	When samples should have been taken	When samples were or will be taken
Water quality parameters-Distribution system	Quarterly	14	July-September 2023	July 19, 2023
Water quality parameters-entry point to the distribution system	Quarterly	1	July-September 2023	July 19, 2023

**What is being done?**

We have corrected the problem. For more information, please contact Matt Henry at 940-328-7865 or P. O. Box 460, Mineral Wells, TX 76068.

The wrong chain of custody form was provided and submitted to TCEQ by the contract lab. The lab now has the correct forms. All sampling results were well within the safe drinking water standards set by the TCEQ. Information was also provided on the 2023 CCR.

*Please share this information with all other people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.*

This notice is being sent to you by Scott McKennon, Director of Public Works. Public Water System Number: TX 1820001
